MAKE YOUR OWN GUITAR

*Create your own... rockstar guitar--- for all the
rockstar kids out there!*

WHAT YOU NEED:

-  Large pieces of cardboard
-  Printed template
-  Glue (we suggest liquid glue for a tighter hold)
-  Box cutter (ask your parents for help here)
-  Paint and paintbrush or thick/bold markers
-  Optional: liquid White-out to accompany markers and paint

1

Print out guitar template.

2

Trace the template over the cardboard and then ask a parent to help you cut out

3

Cut two rectangle strips out of the extra cardboard—around 1 ½" X 16" ea

4

Glue one strip to the top of the guitar cut out (tip: glue on the back) and let dry

5

Now for the real fun— paint and markers! Let your creativity shine!

6

Remember there is no right or wrong way to be a rockstar!
